

All individual chairs from our range are available in Logix flat-floor seating formats. Logix chairs allow for chairs to be set out in linked, formatted rows and do not require permanent fixing to the floor. The chairs utilised with this design feature tip-up seat bases which means, the seats have a narrower envelope than stacking chairs therefore often allowing for larger capacities through reduced row depths.

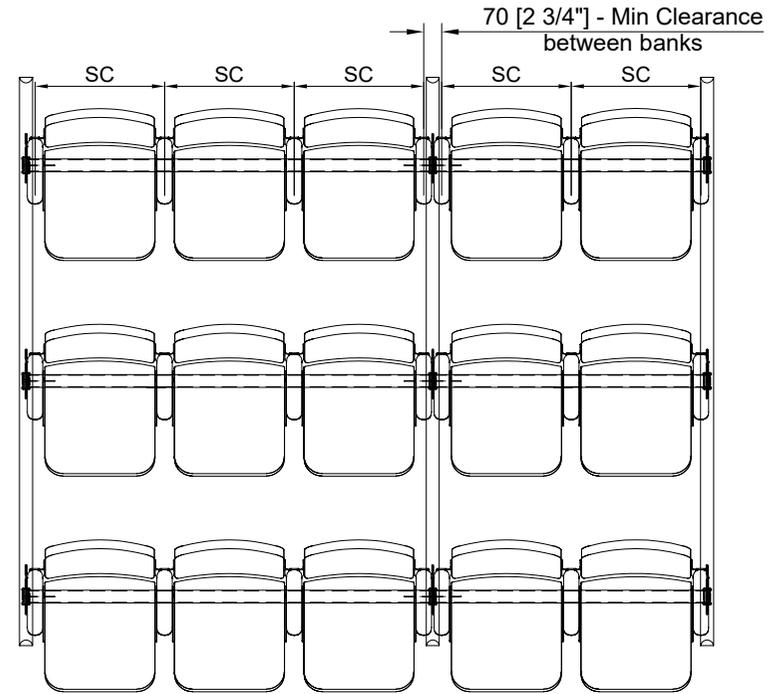

FEATURES

- Available Seat centres from 18"-21 ¾"
- Banks of up to 4 seats per frame
- Floor bars are to be placed directly on the floor surface (no requirement for floor fixing)
