

Our Rollable seating is a fully removable system, allowing frames of up to 11 chairs to be effortlessly wheeled away when not in use. Designed for single-person operation, it is particularly well-suited to venues with storage space beneath the stage or at an adjacent floor level. A real game-changer when it comes to quick set-up times

Each frame is fitted with integral castors that permit smooth 360-degree manoeuvrability. Once positioned, a discreet foot lever locks the unit securely in place, eliminating the need for floor fixings and ensuring rapid deployment and retraction with minimal disruption.

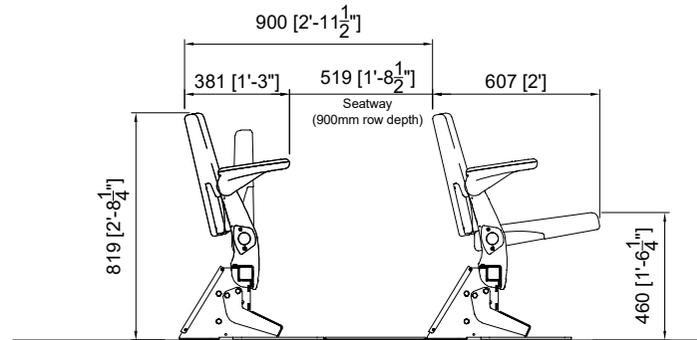

FEATURES

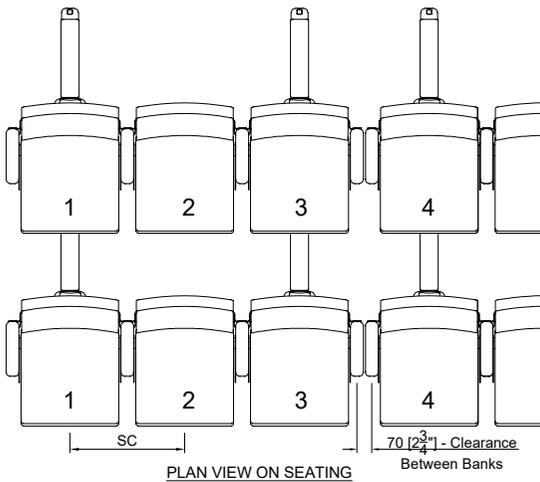

- Available with our Gallery 3, S200 and Space seating models.
- Eliminates the manual handling associated with typical flat floor seating.
- Linking bars available to ensure consistent row spacing
- Foam rubber base to prevent floor marking
